

Suk Lee
Director, Design Infrastructure Marketing Division
TSMC

Suk Lee was appointed director of TSMC's Design Infrastructure Marketing Division in September 2010, having joined TSMC a year earlier as director of Business Development for the Design Technology Platform Division.

Prior to TSMC, Suk was Vice President and General Manager of Magma's Custom Design Business Unit. He has more than 20 years of experience in the semiconductor and EDA industries, having filled management roles in engineering, marketing and general management at LSI Logic, Texas Instruments, Cadence, and Magma.

Suk received his BSEE from MIT and his MSEE from the University of Toronto.
