SAN JOSE, Calif. — Semico Research Corp. has spun-off a new research company.

The company, Semiconductor Partners, will conduct research in the manufacturing, emerging markets, [memory](#) and other sectors. Joanne Itow, who follows the manufacturing sector, is the managing partner with Semiconductor Partners.

The other analysts at Semiconductor Partners (Phoenix) include Adrienne Downey and Morry Marshall.

Semico Research will continue to exist under Jim Feldhan, president of the firm.
